Did you purchase manual-grade strapping containing only virgin materials? If yes, continue. If no, go to bottom of page and press the **Submit** button!

Executive Order 13101 requires that 100 percent of purchases of designated items meet or exceed the EPA guideline standards unless written justification is provided of the following: (check all those that apply)

- ☐ the item made with recovered materials is not available competitively within a reasonable period of time
- ☐ the item made with recovered materials is not available at a reasonable price
- ☐ the item made with recovered materials is not available within the performance requirements
- ☐ None of the above (Justification does not conform with valid reasons per EO 13101. Corrective action should be taken to prevent re-occurrence.)

Although this report does not require that you provide detailed documentation of the justification for not purchasing 100 percent of the designated item with recommended levels of recovered materials, EO 13101 requires that written justification be provided. Thus, documentation should be maintained at your site for future reference.

In order to satisfy our reporting requirements to OMB, please provide a summary of the justifications (technical impediments) preventing your consistent purchase of the EPA designated item with recovered content:

Total dollar amount of purchases of this item which do not conform with the three EO 13101 justifications given above:

0.00

Per EO 13101, procurement personnel **MUST** submit a plan for purchasing recovered-content EPA designated items if

Miscellaneous Products: Manual-Grade Strapping

any or all of your purchases of virgin content products were unjustified.

Please describe your site plan.
